Hi Cassie,

Not sure if you received this or not, but this language is what is needed for ESA DERs. I think your conclusions are in alignment with this, but the specific determination needs to be clear.

We can chat tomorrow. I am working at home and will be at a Dr. appointment from 12:30 until 2pm. Let's set up a time if Wiebke or Amanda have not already done so.

Thanks,
Chris

Subject: ESA finding

Hi Chris,

Wiebke mentioned to me that you were thinking about the ESA finding. For the risk assessment, I was planning to use wording similar to how Shannon phrased it in the ZAP males eco review (pg 10, attached). I know phrasing has to be very precise for this finding. Do you think the phrasing in the ZAP males review is ok?

Thanks,
Amanda
